## PROFESSIONAL SUMMARY

Senior frontend engineer and Frontend Team Lead specializing in React.js and React Native. I build secure, scalable web and mobile products across fintech, AI, healthcare, and marketplaces, with a focus on performance, accessibility, and shipping polished interfaces used across Africa and North America.

## TECHNICAL SKILLS

**Web** React.js, TypeScript, Next.js, JavaScript, HTML, CSS/SCSS, Progressive Web Apps

**Mobile** React Native, Cross-platform iOS & Android

**Practice** UI/UX implementation, REST APIs, Team leadership, Consulting, Agile delivery

## PROFESSIONAL EXPERIENCE

### Senior Software Engineer Union Systems Limited

**Present** Sep 2023 – Present

Full-time · Hybrid · Lagos State, Nigeria

- Frontend Team Lead for the React.js engineering team building secure, scalable fintech web applications.
- Drive high-performance frontend architecture, code quality, and delivery across product initiatives.
- Collaborate with design and backend teams to ship production-ready interfaces for African financial software.

Front-End Development React.js React Native TypeScript

### Senior Software Engineer BreezeLearn

**Contract** Jul 2022 – Aug 2023

Contract · Remote · United States

- Built mobile and web applications with a strong focus on user experience and accessibility.
- Sole frontend engineer for the BONNEE app—owned delivery of high-quality releases end to end.
- Shipped polished React and React Native experiences for US-based product teams.

Front-End Development React Native React.js

### Frontend Developer Sterling Bank

Jun 2021 – Jun 2022

Full-time · Remote · Lagos State, Nigeria

- Developed React and React Native interfaces for banking digital products used by customers across Nigeria.
- Partnered with designers and stakeholders to improve engagement and consistency across digital channels.

Front-End Development React Native React.js

### Frontend Developer ITSkillsCenter

Jan 2020 – May 2021

Full-time · On-site · Lagos State, Nigeria

- Built responsive frontend interfaces for client products while growing modern web development skills.
- Contributed to training beginners in frontend development alongside shipping production UI work.

Front-End Development JavaScript HTML & CSS

## SELECTED COLLABORATIONS

Also shipped products with Soar Digital, Tremendoc, AlphaCX, and Paysync—fintech, health, and retail experiences beyond full-time roles.

## WHY WORK WITH ME

I bring hands-on leadership and delivery: leading frontend teams, owning products as a sole engineer when needed, and shipping web and mobile apps for companies across Nigeria and the US. Strong on React/React Native craft, clear communication with design and stakeholders, and dependable project ownership from concept to release.
